Task 3 – Report Write-up

NAME: BHUMIKA SHARMA

REGISTRATION NUMBER: 25BOE10070

BRANCH: B.Tech Bioengineering

For this task, I explored both coding practice platforms and collaboration tools. I created an account on HackerRank and completed a beginner-level challenge called “Solve Me First.” This task helped me understand the basic structure of coding problems and how to apply simple programming logic. It also improved my confidence in writing and testing code in an online environment.

For the collaboration part, I created a Digital Literacy Awareness Quiz using Google Forms. The quiz included five questions, with a mix of multiple choice and short answer types. I also explored the response feature, where all the answers are automatically collected and displayed in Google Sheets. This helped me understand how data can be organized and analyzed efficiently.

These platforms will be very useful in my academic journey. HackerRank will help me improve my coding and problem-solving skills, while Google Forms and Sheets will help me in conducting surveys, quizzes, and managing data effectively during my college years.
